## General remarks regarding the HCI & InfoVis presentation sessions.

The schedule consists of 4 sections. The 1<sup>st</sup> column (section 1) indicates the team number, 2<sup>nd</sup> represents the assistant; thereafter the team-members are listed (section 3). The last section lists the presentation date for each team and the dates your attendance is expected. The presentations are scheduled from November 3<sup>rd</sup> till December 1<sup>st</sup>.

The attendance section is color coded, indicating Mondays in *light-pink* and Thursdays in *light-blue*. A “P” on a given date you are expected to present your project. Each team (student) is scheduled for 3 sessions. These are **mandatory**; if you are prevented you should notify to the course administration. In all cases you should have attended at least 3 of the sessions; a record of your attendance is kept. For your attendance two different codes are given. These are explained as follows:

**P = Present:** your group does a 12 minute presentation; as a guide, use the template provided on the course-website in combination with the guidelines.

**X = Discuss:** you are expected to attend at the indicated dates to participate in the discussion and provide comments to the design of your fellow students.

The size of the group (22-24 students) at each presentation session is chosen such that a good discussion on each of the products can follow and everybody can participate in the discussion. The participation in the discussion is valued positively. We hope that the discussions following the presentations will trigger you to participate; after all you are now becoming an expert. Being present at presentation sessions other than the one that you are scheduled for is allowed; please notify the course administration.

### Times/Location Presentation sessions

Monday 11.00-12.45/413

Thursday 11.00-12.45/413

The (3) presentation sessions are mandatory; an attendance-list will be kept. Absence will be included in the final evaluation and grading of your project.

Questions can be directed to the team-assistant and/or course administration. See also ppt-file with instruction slides.
